## EDUCATION

- M.sc Computer Science**  
Adarsh Senior College Omerga  
June 2021 - April 2023
- B.Sc. Computer Science**  
Shri. Chhatrapati Shivaji College ,  
Omerga  
June 2018 - April 2021
- H.S.C.**  
Shri. Chhatrapati Shivaji College ,  
Omerga  
June 2017 - June 2018

## TECHNICAL SKILLS

Python | Selenium | Postman |  
Cypress | Java | JavaScript

## SOFT SKILLS

- Time Management
- Problem Solving

## INTERESTS

Editing | Playing Cricket

## CERTIFICATES

Construct Week Project  
Masai School

## PROFESSIONAL SUMMARY

Dynamic SDET/QA professional with robust Python skills and keen proficiency in detecting algorithmic and logic errors. Excels in crafting comprehensive test scenarios and advocating for best testing practices. Demonstrates adeptness in leveraging Generative AI tools and assimilating new technologies swiftly to optimize software quality.

## PROJECTS

### 1. Property Dealing Website |

#### Responsive Web Design | Manual Testing

- Developed full-stack web application with a focus on user interface design.
- Implemented comprehensive testing scenarios to identify and fix logic errors in the codebase.
- Collaborated with a team using Git for version control to track and resolve issues efficiently.
- Advance Search & Filters Enabled location based searches and filters for price type and amenities.
- Secure Payment Gateway implemented online payment options for premium listings.
- interactive maps integrated Google maps for property locations.

### 2. E-commerce Website |

#### Responsive Web Design | JavaScript | Git

- Built a responsive e-commerce platform with an emphasis on enhancing user experience.
- Created and executed test plans to ensure functionality and identify algorithmic errors.
- Worked in a team to maintain code quality and manage project requirements, utilizing Git for version control.
- User Authentication and Authorization verified login, registration and role based access.
- Shopping cart and checkout Tested adding /removing items, discounts, and payment processing.
- Security Testing identified vulnerabilities like SQL injection and XSS
- Product Search and Filters ensured accurate search result, sorting, and filtering.

## ACHIEVEMENTS

Python Programming Course Completed  
Naresh IT, Hyderabad
